A CONTROVERSY WITH TWO PLAUS

[Phenix Herald.] Prof. R. L. Long was regularly ap-

pointed by the Normal School Board to teach the Normal School. He discharged his duties faithfully, in accordance with that contract. During his incumbency a new Normal Board came into office which at once ratified the contract with Prof. Long that the preceding Board had made. At the end of the year Prof. Long's accounts were audited by the new Board and his bills allowed and ordered paid. The Republican auditor of the Territory, Hon. Thos. Hughes, audited these claims against the Normal School fund and promptly drew his warrant for the amount due Prof. Long. Those warrants are presented to Gov. Wolfley for his signature and he refuses it without giving reasen-in fact for no just reason. The Territory is honor and legally bound to pay that debt. and that an attempt should be made to put the Territory in the position of endeavoring to secure Prof. Long's services and swindling him out of his just dues through its Chief Executive is nothing less than a disgrace to the people of Arizona, but one which they powerless to prevent, and one which they are unanimously unwilling to have perpetrated. Is Mr. Long's offense the fact that he has always been a clean Republican; that he had been nominated and elected on the Republican ticket as Superintendent of Public Instruction

for Arizona, and filled that office to the credit of the Territory? Is it because he was originally appointed Principal of the Normal School, a purely non-partisan position, by Democratic Board, which appointment was duly ratified by the present Republican Hoard? Is it because his account was approved by Hon. G. W. Cheyney, Superintendent of Public Instruction, who refused to listen to the Governor's dictation? Is it be cause right and justice demand that the account shall be paid? Is it because the people of the Territory whose servant Gov. Wolfley is supposed to be, want the business of the office of

Governor done honorably and outside of petty, personal malice? Is it because Gov. Wolfley could not dictate to the Normal School Board or Principal Long? Is it because Gov. Wolfley proposes to crush the Republican party of Arizona by using every means and every occasion within his he is not broad gauge enough to be at the people and the press at his assumption of dictatorial powers that

Has the Governor any motive outside of his legal director's suggestions and his own great desire to rule or run.? Phenix Republican Believing the Herald's statement that "Professor Long's warrants were presented to Governor Wolfley for his signature and he refuses it without giving reason-in fact, for no just reason," a Republican reporter visited the Governor last night to get a state-

ment from him regarding the mat

"Mr. Lewis of the Arizona National Bank brought the warrants to me for my approval," said the Governor. I told him I wanted to consult with Attorney-General Churchill to see whether or not the claim was tegal before I approved it. The next morning Mr. Lewis came back and wanted to know if General Churchill had rendered an opinion upon them. I told to go forward. A large lot of fire- them with me and I would have them works have been ordered and no effort acted upon as soon as possible. He among friends in the East. "Chino" Orosco, did some ugly gun

work at the railroad corrals here Wed-Jesus Montana, one of the vaqueros men were all about to quit tana in the left aym, inflicting an ugly wound, the bone being badly shatter H. D. Stephens cut a bee-tree near ed, the same ball also creasing Mon but as the wounded men were unable the ex-President Grant, was in the was continued until July 14th, Orosco city the first of the week in com- in the meantime being admitted to pany with C. J. Wimple. They bail in the sum of \$300. He claims H. B. TENNEY that Montana had a gun and was at-(Orosco) fired, but this is denied by Montana. Both of the wounded men were taken to the hospital at Tucson

Mr. J. H. Martineau, of Gila Bend. one of the solid men of Ping county is in the city. Mr. Martineau reports and one of the squarest men on that Gila Bend is a country with a great future in the agricultural line. The Gila Bend canal is being built, which will be 60 or 70 miles long and 40 feet wide, opening up to settlement about 150,000 acres of land, which there will be a great rush to occupy This region is a fine fruit region, and a specialty will be made of oranges which, with lemons and olives, will be raised in considerable quantities, to compete with California fruits, as this region, like the Salt River Valley, can get fruit in the market a month earlier than California can. Mr. Martineau also reports that a canal is to be built by eastern parties about 30 miles west tract of valuable land to cultivation .-
